 RADIUS: 17.2m @ 185
 SIZE: 155, 160, 165, 170, 175, 180, 185
 BINDING: AXIUM 120 TPI

TECHNOLOGY:
 CENTERED SIDECUT
 FREERIDE SPOON TIP
 CONSTRUCTION:
 STRUCTURE: CAPPED RossiTop.
 CORE: COMPOSITE
 LAMINATES: FIBERGLASS

A **CENTERED SIDECUT**

- Sidecut features a unique tapering tip and tail with short sidecut directly under foot
- Deep radius gives edge grip and power under foot while short length of sidecut allows easy steering and playfulness

B **SPOON TIP TECHNOLOGY**

- Spoon shaped tip for maximum flotation
- Tip profile is designed for learning new techniques while honoring all skill levels

C **SANDWICH LAMINATE CONSTRUCTION**

- Composite core, capped sidewalls, fiberglass, metal and high-tech laminates

D **WRS WEIGHT REDUCTION SYSTEM**

- Patented fiberglass design concentrated under foot with less density in tip and tail
- Maximizes ski's durability and minimizes overall weight by 400 grams

FIBER DENSITY RATIO
