Ski Information Sheet - Premier Package

SKI MODEL:

# EXPERIENCE 88

EXPERIENCE is the gold standard of a brand new breed of all-mountain performance skis. Experience features all of the latest technologies and designs to deliver more on-trail and off-trail performance, greater versatility and more maneuverability to skiers of all levels than any other ski ever.

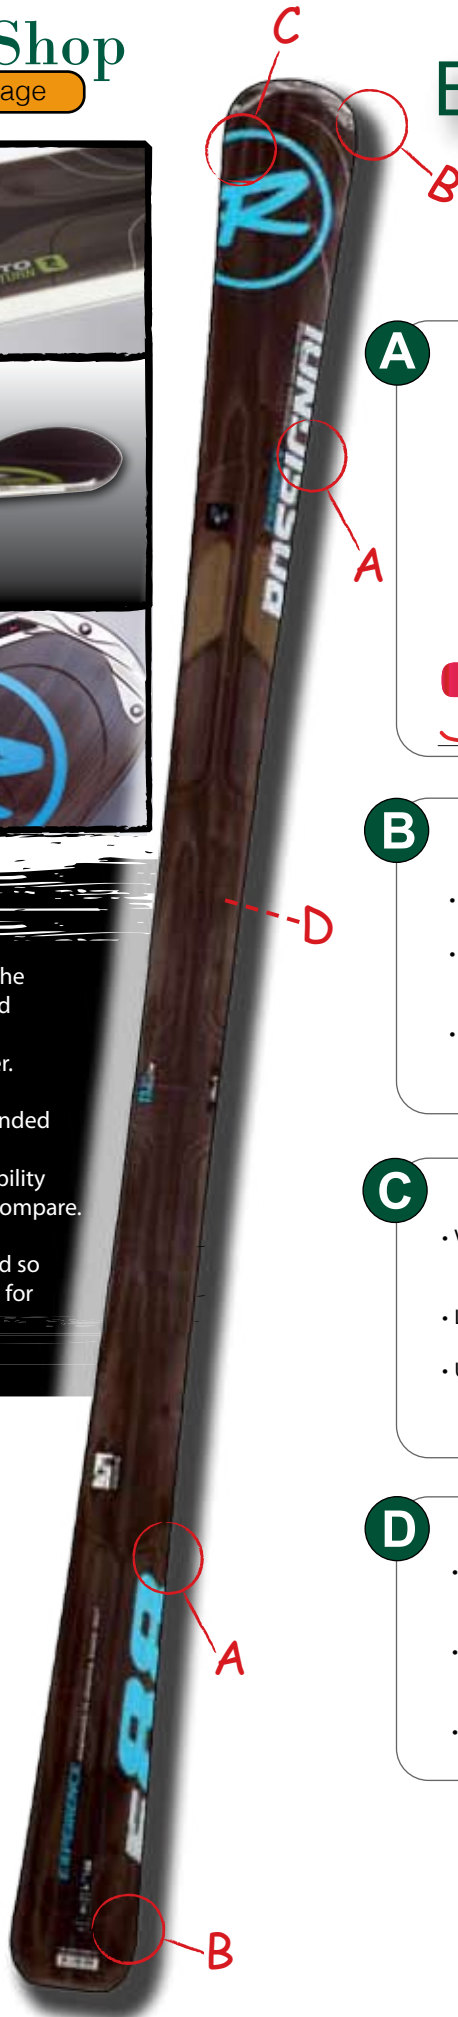

Experience's unique combination of AutoTurn Rocker, Extended Sidecut, Cascade Tip and wider waist widths delivers easier turning and carving on groomers and in powder, more stability in all conditions and an enhanced ski experience beyond compare.

Never before has an all-mountain ski performed so well and so easily in all terrain types and in any conditions. Developed for skiers of all levels for top performance in all conditions.

## EXPERIENCE 88 STATISTICS

SIDECUT: 135/88/124  
 RADIUS: 16.4m @ 178  
 SIZE: 162, 170, 178, 186  
 BINDING: AXIUM 120

TECHNOLOGY:  
 AUTOTURN ROCKER  
 EXTENDED SIDECUT  
 CASCADE TIP  
 CONSTRUCTION:  
 STRUCTURE: SANDWICH  
 CORE: WOOD  
 LAMINATES: BASALT / FIBERGLASS

**A** **AUTO TURN**  **ROCKER**

- 70% traditional, high camber under foot while remaining 30% of the tip and tail feature low rocker
- Camber under foot delivers power, energy and edge grip for groomed run performance
- Subtle rocker tip and tail delivers easy steering and effortless speed control for versatility in any terrain or snow type

**B** **EXTENDED SIDECUT**  **EXTENDED SIDECUT**

- Sidecut continues beyond contact point where tip and tail rocker start
- As speeds and edge angles increase more sidecut is engaged for powerful full-length edge grip
- At lower speeds and edge angles, sidecut is less engaged for more maneuverability and ease

**C** **CASCADETIP**  **CASCADETIP**

- Varying shapes of metal and fiberglass laminates at staggered lengths make the tip lighter
- Lighter tip improves swing weight providing quick and adaptable turn initiation
- Unique layered shapes control tip torsion, smoothing turn initiation and improving full edge contact

**D** **WIDE PLATE**

- New, wider binding platform designed for wide skis (80mm +) increases leverage, enhancing power and precision
- Control beam combined with Twin VAS absorbs vibrations and facilitates rebound by directing pressure to the extremities
- Tool-free binding enables easy adjustment
