Ski Information Sheet - Premier Package

SKI MODEL:
S3

FREESKI FREERIDE

The S SERIES includes several world-renowned freeride skis aimed at big mountain riders, side country aficionados and everyone who loves exploring off-trail.

The award-winning, game changing S3 model provides amazing flotation and tracking, easy-steering and speed control and respectable skiing on groomers. These skis appeal to everyone from hard-core to aspiring powder enthusiast.

S3 STATISTICS

SIDECUT: 128/98/118
RADIUS: 23m @ 186
SIZE: 159, 168, 178, 186
BINDING: AXIUM 120

TECHNOLOGY:
POWER TURN ROCKER
CENTERED SIDECUT
SPOON TIP
CONSTRUCTION:
STRUCTURE: SANDWICH
CORE: WOOD
LAMINATES: FIBERGLASS

A **POWDER TURN** **ROCKER**

- 50% low camber under foot while the remaining 50% of tip and tail features high rocker
- Camber under foot delivers power, energy and edge grip for groomed snow
- High rocker tip produces more flotation and effortless powder skiing
- High rocker tail is pin-shaped for easy steering and instant speed control

B **CENTERED SIDECUT** **CENTERED SIDECUT**

- Sidecut features a unique tapering tip and tail with short sidecut directly under foot
- Deep radius gives edge grip and power under foot while short length of sidecut allows easy steering and playfulness

C **SPOON TIP TECHNOLOGY** **SPOON TIP**

- Spoon shaped tip for maximum flotation
- Tip profile is tapered for effortless tracking in deep snow

D **SANDWICH LAMINATE CONSTRUCTION**

- Wood cores, vertical sidewalls, fiberglass, metal and high-tech laminates
- Traditional sidewalls create direct edging pressure while core and laminates provide flex, power, and stability

E **WRS WEIGHT REDUCTION SYSTEM**

- Patented fiberglass design concentrated under foot with less density in tip and tail
- Maximizes ski's durability and minimizes overall weight by 400 grams
