Ski Information Sheet - Adult Boots

BOOT MODELS:

## EXALT X & LIBERTY 3

Rossignol began redesigning its boots five years ago by analyzing modern foot shapes: Rossignol scanned 20,000 skiers' feet with the use of a new, state-of-the-art 3D imaging system.

Through this analysis, Rossignol has developed a unique last approach that includes an asymmetrical toe box, width across the balls of the feet and a more articulate mid-foot and heel pocket. This specific last shape fits more feet and delivers more control than other rental boots.

### Rossignol BOOT TECHNOLOGY

#### TRUE LASTED LINER

- Mirrors internal shape of the shell perfectly
- Length / Height
- Heel contour matches shell
- No gaps or short-lasting of the toe box produces a true fit

#### CONTINUOUS ONE PIECE TONGUE AND TOE BOX

- Continuous one piece tongue is integrated into the toe box construction to prevent deformation when entering for initial "wow" fit factor
- Seamless one piece tongue eliminates pressure points across top of toes and shins

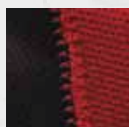

#### SELF-SHAPING TONGUE

Tongue is molded in an open shape and self adjusts around skier's leg. It's personalized comfort and no shin bang or pinching.

#### INSTEP POCKET

Plastic portion of tongue is cut out directly over instep bone, eliminates pressure on top of foot and ensures good blood circulation equaling warmth.

#### SADDLE-STITCHED SEAMS

- No overlapping material thickness
- Eliminates pressure points

### EXALT X

Intermediate and developing skiers looking for an easy-to-enter boot with high skiability for improving their performance.

#### STATS

LAST: 104mm  
 FLEX: 80/70  
 SIZE: 24.5-31.5  
 SHELL: Polyolefin, bi-injected  
 PADDING: Eva Machined

### FEATURES

- A. PRO FIT LINER:** 1st true lasted liner; matches internal shell perfectly for best out-of-the box fit.
  - Padding: Pre-shaped precise padding holds the heel securely and is resistant to packing out
  - One Piece Toe Box & Tongue: Roomy seamless toe box eliminates pressure points around the toes to ensure warmth and comfort
  - Instep Pocket: Soft pocket over instep bone for personalized fit to provide comfort and circulation to toes
- B. EASY ENTRY CONCEPT:** Notches in lower shell allow for ultra easy entry and exit without compromising four-buckle boot performance.
- C. NEUTRAL STANCE:** Gives skiers a stable and comfortable stance to drive the ski through turns.
- D. REBOUND CUFF:** Elastomer cylinder located in the back of the boot to facilitate rebound and improve flex.
- E. TOOL FREE CATCH:** Makes fine-tuning the fit easier.

### LIBERTY 3

Novice skiers who want comfortable, easy-to-use boots.

#### FEATURES / STATS

- A. Comfort Fit Liner**
- B. Flex: Soft**
- C. Last: Unisex**
- D. Fit: High**
