THIS MONTH'S THEME

## Winter in the Woods

This month, your child will experience the beauty of the forest as they learn about the animals that run, play or hibernate in the winter woods. They will build a bear den, decorate a snowman, knit mittens, create a cozy fireplace and make a hearty breakfast. This winter in the woods is full of fun and surprises.

## Share traditions and make memories.

Traditions are more than just holidays. Traditions can also be simple routine happenings that occur on a regular basis. Bedtime, bathtime, dinnertime or storytime routines are traditions. Traditions can occur weekly, such as Sunday dinners, Monday night football or Friday game nights. They can also occur monthly as a family outing or even an annual family event.

Developing and maintaining traditions can be instrumental in creating strong family dynamics and in supporting a child's social and emotional development. Identify and commit to your unique family traditions.

### A few tips to help you get started:

- **Start Simple.** Look for easy, everyday traditions: a bedtime hug or storytime after dinner.
- **Create a name.** Name your routines to help children and family members identify them: It's hug and snugg time, Family Fun Friday, etc.
- **Celebrate the people, not just the tradition.** Remind children that what makes a tradition special is the people who share it. It doesn't matter what you do. What matters is who is with you.

Traditions are a great way to bond with your family. Spending time together is truly a beautiful gift!

Look for the daily notes about your child's art projects!

Today I made a deer headband.

Male deer grow antlers on themselves. I decided to make a headband by tracing my hands. No glue, just a deer and quietly le

Today I sewed mittens.

I learned how to sew today. I made mittens by weaving yarn in and out of the holes. This helps build my fine motor skills. I can wear my mittens and look for items that can fit inside them.

ASK ME: What did you enjoy about this project? Why are your mittens special?

## Family Activities

## Head Outdoors

Parents know the struggle of having children cooped up inside when the weather is cold. It can be challenging to find the motivation to go outside.

A scavenger hunt is a fun, simple activity that's perfect for your family any time of year. Take a walk in search of winter's natural beauty and you'll find lots of things that are unique to the season.
